UNIVERSITAS MUHAMMADIYAH MALANG

The campus of Universitas Muhammadiyah Malang (UMM) is strategically located between valleys and hills, which makes it topographically exotic. It is 8 km away from the heart of Malang city, with around 15 minutes of travelling time. UMM was designed by experts by blending the architectures of Islam, Java, and China, to reflect the campus vision in combining grand civilizations with Islamic values. With around 30,000 students, UMM is amongst the top universities in Jawa Timur. The students come from various regions in Indonesia, making the campus the miniature of the country. UMM also becomes a study destination of international students, where everyone is treated equally and able to learn in harmony.

UMM takes pride on its continuous efforts for quality improvement, aiming for nationally and internationally standardized campus. UMM strives for a dynamic development within the rapid changes in the global society.

WHY UMM

The pleasant learning environment of UMM nurtures healthy academic climate to develop student characters and maximize their potentials | UMM is accredited A by the National Accreditation Board (BAN-PT) of Indonesia's General Directorate of Higher Education (Dirjen Dikti) | UMM has a range of national and international achievements | UMM integrates learning and entrepreneurship | UMM offers religious, multicultural, and international learning environment

Research
UMM has consistently belonged to The Top 10 University receiving Dirjen Dikti's and the Ministry of Education and Culture's research grants over years. It is a private university with the highest research productivity since 2000.

International Network
UMM strives to develop international network, particularly with education institutions in Europe, The United States, Australia, Asia, and The Middle-East. ACICIS consortium supports the international network with Australia, and Erasmus Mundus supports the ones with the European universities.

University Rank
UMM has achieved international recognition as a World Class university. Among the achievements was being openly welcome to international students, expanding research quality and collaboration, and teaching quality. The London-based QS star has ranked UMM with two stars, making UMM highly competitive with other 10 reputable Indonesian universities.

Academic Qualification
UMM takes pride on giving the best academic quality. The lecturing is carried out professionally, delivered by trusted, highly competent experts in their academic fields. The internal Quality Management System of UMM continuously monitors and evaluates the campus' academic quality. Since 2008, UMM is recognized by Dirjen Dikti to be consistently running evaluations through a highly structured Quality Management System.

Student Development
UMM provides students with academic facilities and other supportive systems to enhance their learning. The campus offers a wide range of learning sources in library, along with wide coverage and stable internet network. UMM also provides sports facilities, parks, health clinics, counselling, and scholarship.
