POST GRADUATE PROGRAM MASTER OF MANAGEMENT UNIVERSITAS MUHAMMADIYAH YOGYAKARTA

BACKGROUND

The rapidly changing global business environment has an impact on broader business opportunities and challenges for business people. Therefore, future business people such as managers and professionals are expected to have the ability to face a variety of occasions and business challenges that are always changing with the ability to innovate and the ability to make business decisions with the support of knowledge and strong business skills. Also, business people are expected to have the ability to manage stability in the organization they manage to provide certainty of work for the employees they lead.

These conditions encourage Master of Management of Universitas Muhammadiyah Yogyakarta (MM-UMY) to play an active role in the development of managers and professionals based on superior business knowledge, skills, and enlightening morality ethics.

VISION

Becoming a global and leading Master of Management program in developing knowledge and technology based on Islamic values in Southeast Asia by 2025

MISSION

- Undertaking global business education in the level of master degree to develop knowledge, science, and technology based on Islamic values
- Conducting research in business domains that are in accordance with global knowledge development
- Performing community service activities in the scope of business management service by conducting management development activities for SMEs and non-profit organizations for betterment of ummah base on Islamic values.
- Producing graduates with noble character and devotion to their knowledge based on Islamic values and playing a role in the development of Muhammadiyah to benefit others.

PROGRAM OBJECTIVES

This Master of Management program aims at:

1. Producing graduates with global business management qualification and can implement their knowledge, science, and technology based on Islamic values.
2. Producing Graduates who possess entrepreneurial skills, are honest, have responsible, creative and innovative attitudes, and are capable of decisions-making and risk-tasking.
3. Producing graduates who can do research and publish the research result in international journals in the field of business management in accordance with the development of knowledge, science and technology in a global trend.
4. Producing graduates who can empower community through business management practices in micro, small and medium scale enterprises as well as strengthen the capacity of non-profit organizations for the benefit of the Ummah based on Islamic values.
