## WHY STUDY AT UMY, YOGYAKARTA, INDONESIA?

Yogyakarta is well-known as a "student city", a city with long tradition of developing an academic atmosphere. Yogyakarta is also one of the favorite tourism destinations in Indonesia, a destination for foreigners to enjoy the cultures, traditions, and scenic natures. With the status as a special province, and the highest leader is the king, Yogyakarta presents uniqueness of a kingdom with its tradition that is attached to people's lives. It can be seen from the friendly people, historic buildings, and the architectures of public facilities. UMY is a private university in Yogyakarta with superior accreditation (A). In 2021 UMY becomes the 1st best private university in the province of Yogyakarta and Central Java, the 4th best in Indonesia, and the 10th best in Asia. Studying at UMY not only provides students with useful education and experiences to achieve success, but also helps them find fields that match to their interests.

## VISION

To become a nursing master program that is excellent in the development of science and technology through interdisciplinary research based on Islamic values for the benefit of the people.

## MISSION

1. Establishing nursing education program based on Islamic values, research, and technology with national and international standards.
2. Developing interdisciplinary research to produce nursing technology.
3. Increasing international collaboration.
4. Organizing community service to form a caring, empowered and independent community.
5. Creating an academic community with entrepreneurial spirit and competitiveness.

## FACILITIES

## ABOUT US

Master of Nursing UMY is the only private nursing study program with A national accreditation status in Yogyakarta. We implemented a problem-based learning in our instructional processes for 1.5 years (3 semesters) starting from the odd semester 2021/2022. Supported by qualified teaching lecturers and excellent infrastructure, we provide student learning experiences with various methods such as small group discussions, classes, clinical practice in domestic and overseas, field trips, project based learning, etc. We offer four concentrations, namely Medical Surgical Nursing, Nursing Education, Community Nursing, and Mental Health Nursing.
