NORTH MALUKU**

MAJORING PUBLIC HEALTH

FACULTY OF HEALTH

ABOUT THE COMMUNITY HEALTH STUDY PROGRAM

Starting from the urgent need for community health workers, especially in North Maluku, which was responded to the leadership of Muhammadiyah University of North Maluku by exploring the development of the Community Health Science Department to manage and educate competent and professional community health workers. Subsequently, the Community Health Study Program was established based on the Decree of the Directorate General of Higher Education No. 181/D/T/2003. Since its establishment, the Community Health Study Program has been involved in teaching, research, community service, and practicing Al-Islam muhammadiyah. Graduates have been absorbed by government and private institutions throughout Indonesia, especially in the Eastern Indonesia Region (KTI). The Community Health Study Program has a teaching staff of 33 lecturers, consisting of 2 Doctors (Ph.D.) and 31 Masters (M.Sc.).

COURSE LOAD

The study can be completed in 4 years/8 semesters with a total of 149 Credit Units (SKS) to be taken.

GRADUATE PROFILE

Upon completing the Community Health Study Program, graduates earn the title of Bachelor of Community Health (BCH). The graduate profile includes the following roles (MIRACLE):

- Manager
- Innovator
- Junior Researcher
